- ✓ Customer focused
- ✓ Transparent communication

PAST PERFORMANCE

Air Force

Project Title: Financial Management Workflow Support (FMWF); Developed and Managed Financial Management Workflow solution which helped in eliminating manual burdensome business document processing.

Army

Project Title: General Fund Enterprise Business System (GFEBs); GFEBs is a large and complex ERP System. GFEBs consolidation will give the Army officials a view of how money is disbursed and will also feed vital, up-to-the-minute information to senior civilian and Army leadership.

Health Resources and Services Administration

Project Title: Uniform Data System Plus (UDS+); UDS+ helps health centers to submit de-identified patient-level data instead of aggregated data using FHIR API and leverage technology to bypass manual aggregation step.

Office Of Personal Management

Project Title: Modernization of Legacy Systems; Successfully migrated 20+ legacy z/OS mainframe program to J2EE / Net micro services with huge performance improvement
